AVF-1SPEAKERS	5.25"	20mm	35W	50Hz – 20kHz	89dB	163 x 239 x 160	2 x 4M

You have just bought one of the best televisions available, now it's time to choose the best speakers for your environment.

To make this easier for you we have chosen 2 types of ceiling speakers, and 2 types of wall mount speakers.

All are water-resistant so are perfect for use in the bathroom, kitchen, or wherever your Aquavision is positioned

All speakers are designed to work with your Aquavision<sup>®</sup> perfectly, but models AVF-1SPEAKER and AVF-3SPEAKER will give you a deeper, richer bass, and a crisper, sharper, treble for that overall increased sound quality.
