Remote Switch Panel - RSP4

The AQUAVISION[®] remote switch panel is exactly what it says, a small switch panel that gives you instant control of your AQUAVISION[®] without having to find the remote control. Ideal for hotels and guesthouses, or indeed anyone who does not want any remote controls "lying around".

Installed into a simple "1 Gang" back box, the same size as a normal light switch, this unit provides the user with simple, discrete, and permanent operation of the most basic functions that you need.

[Remote Switch Panel Details.pdf](#)

Simply plug the supplied lead into the base of the AQUAVISION[®], and the other end into the switch panel and you are ready to go!

The Remote Switch Panel is supplied with the following:-

- 1 Gang Back Box
- 5m interconnecting lead
- Switch panel
- Facia Membrane

This is all the necessary parts that you will need to use.

On the back of the switch panel, there is also a "Switch Mimic" connector suitable for connection to various home networking systems or similar control applications.
